Car Buyer's Program

This program is available to Goodwill Employees, Prosperity Members and their immediate families. As they complete the modules, they gain access to more credit union products as preferred members. There is no charge for this program and fees are waived for one year.

Individual Development Accounts

Individual Development Accounts were created by the Oregon legislature to encourage low-income residents of Oregon to save money, become financially capable and learn to develop assets. IDAs are matched savings accounts where the amount a participant saves is matched by the state on a 3/1 or 5/1 basis to accomplish defined asset development projects. The maximum savings that can be matched for each IDA project is \$3,000 and the maximum time a participant has to complete each project is three years. There are ten categories of projects and the maximum match an individual is allowed to receive for all IDA project completed is \$20,000. Eligibility is based on income and accumulated asset limits.
